💼 EXPERIENCE

Microsoft — Power Automate — *Software Engineer*

Seattle, WA | July 2019 - Current

- Increased Power Automate Monthly active users from 2M to 3M (33%) in 6 months.
- Built out scalable infrastructure to support email notification, and within 1 month over 1M were sent.
- Added a debug–ability service feature to our platform that processes 10M requests per day by recommending error resolution steps.
- Increased MAU of 100+ users by integrating Power Automate, a product feature that allows users to create flows, in Excel on demand.

Microsoft — *Software Engineer Intern*

Seattle, WA | May 2018 - August 2018

- Exposed the Common Data Services layers, and dependency graphs on the Application Lifecycle Management Solution Team using C#, HTML, and JS.

Facebook – News Feed — *Software Engineer Intern*

Menlo Park, CA | January 2018 - April 2018

- Visualized graphql data for debugging for Android News Feed Team.
- Added React components to Sonar using the Flux architecture

Virginia Tech — *Undergraduate Teaching Assistant*

Blacksburg, VA | January 2017 - January 2018

- Taught Android Development with wear/mobile to students taking the class.
- Supported students that are learning fundamentals of Android by providing evaluations and feedback for optimal user interactions.

Bank of America — *Software Engineer Intern*

Pennington, NJ| May 2017 - August 2017

- Developed an application to manage the current VM machines. Developed with JS, HTML, CSS, and C# using the .Net MVC framework. Wrote Web Services, stored procedure with SQL, and worked with BEC.

General Dynamics — *Software Engineer Intern*

Fairfax, VA| May 2016 - August 2016

- Enhanced airport security and reduces airport threats using facial tracking.
- Increased data flow with Derby and DDS for active interactions between server, agents, and clients/Enhanced multi-threading in Maven / JavaFx

📋 PROJECTS

Resaix— *React, Node.js, MongoDb | April 2018 – 2019*
- I created a startup in college where I was working on where students could connect with industry professionals/students with more experience to get their resumes reviewed.

Education

Virginia Tech
B.S.Computer Science, **May 2019**

🧠 Skills

Programming Languages

Java

C#

TypeScript

Python

HTML/CSS

SQL

Frameworks/Libraries

React

Mobx

Node.js

Asp.net,

Angular 2
